INSTRUCTIONS FOR USE

Gas consumption: 2.4 g/h (11300 BTU) - injector n° 092724
Category: butane (direct pressure)
Thank you for choosing the Campingaz® Twister 270 HPZ

A - IMPORTANT: ALWAYS BE CAREFUL WHEN USING GAS!

The purpose of these instructions is to enable you to use your Campingaz® Twister 270 HPZ correctly and in complete safety.
Please read them carefully to familiarise yourself with the equipment prior to assembling the gas container.
Please observe these instructions and the safety measures printed on the Campingaz® CV 470 / CV 270 cartridges. Failure to observe these instructions may result in the user and people in the immediate vicinity being put at risk.
Keep these instructions in a safe place so that you can refer to them if needed.
This equipment must be used exclusively with Campingaz® CV 470 / CV 270 cartridges. Using other gas containers may be dangerous.
The Société Application Des Gaz accepts no responsibility where cartridges of any other make are used.
This product should only be used outdoors away from inflammable materials. This product contains air (oxygen) and should never be used in unventilated or enclosed areas to avoid endangering your life.
Do not use equipment that leaks, functions incorrectly or is damaged. Return it to your retailer who will inform you of your nearest after-sales service.
Never modify this equipment or use it for purposes for which it is not intended.

B - ASSEMBLING THE CAMPINGAZ® Twister 270 HPZ:

a) Remove the equipment from its box.
b) Rotate the arms (3) as far as the catch (fig.2)

C - INSTALLING THE CAMPINGAZ® CV 470 / CV 270 CARTRIDGE:

(Where the existing cartridge is empty, read paragraph E : "Removing the cartridge")
Always fi rst remove a cartridge only when it is not in the presence of a naked flame, heat source or sparks (cigarette, electrical appliance, cooker, etc.).
As CAMPINGAZ® CV 470 / CV 270 CARTRIDGES ARE VALVE-CONTROLLED, THEY CAN BE DETACHED FROM THE EQUIPMENT EASILY TRANSPORTED EVEN WHEN NOT EMPTY AND FITTED TO OTHER CAMPINGAZ® EQUIPMENT.
In the 470/270 RANGE DESIGNED TO OPERATE EXCLUSIVELY WITH THESE CARTRIDGES:
a) Check that the gas supply is fully turned off by turning the control wheel (1) anticlockwise as far as the handle (2) - direction of the arrow.
b) Position the "Easy Clic" system handle (2) as per the arrow (f), as far as the catch. Do not force it.
c) Introduce the 3 claws (5) from the anchoring clip into the cuplet (c) of the cartridge; it must be held in suspension.
d) Bring the "Easy Clic" system handle back as far as the catch, in the shaft of the control wheel (fig.3)
e) The equipment is now ready for use.

Apply soapy water to the connections. Bubbles will form at the source of any leak.

D - USING YOUR STOVE:

1. Lighting the burner:
a) Turn on the tap by turning the control wheel (1) anticlockwise approximately one turn (f) - direction of the arrow.
b) Press button (4) with your fi nger until the pressure system is triggered. This operation is facilitated by holding the device between thumb and index finger. (fig.4)
c) If the burner does not light, release the button (4) and repeat operation b.
d) In the event of 3 failed attempts, turn off the tap by turning the control wheel clockwise to its full extent and check that there is gas in the cartridge prior to repeating lighting operation a) and b).

2. Cooking:
Position the pan on the arms, in the centre of the burner and adjust the gas flow-rate so that the flames do not rise above the pan.

3. Extinguishing:
When you have finished cooking turn off the gas by turning control wheel (1) clockwise to its full extent.

E - REMOVING THE CARTRIDGE:

The cartridge may be removed even if it is not empty.
a) Check that the gas supply is fully turned off by turning the control wheel (1) clockwise to its full extent.
b) Move the "Easy Clic" system handle (2) as per the arrow (f), without forcing it, as far as the catch. (fig.3)
c) Pull the cartridge downwards to detach the 3 claws from the anchoring clip.
Never throw away a cartridge which is not completely empty. (check there is no liquid in the cartridge by shaking it).

F - USE: (Outdoor Use Only), SAFETY MEASURES:

Never allow fabric, clothing or any flammable material to come within 4 ft. (1.2 m) of the top and 2 ft. (60 cm) of all sides of this product.
Position the equipment on a stable, horizontal surface.
Set the cooker at low power when using fl at metallic utensils such as a toaster or a rack for toasting bread.

G - STORAGE AND TROUBLESHOOTING:

Once your equipment has fully cooled:
a) Remove the cartridge as shown in paragraph E.
b) Fold the arms and return the equipment to its box.
c) Store the equipment and the cartridge in a cool, dry and well-ventilated area, out of reach of children. Never store in a basement or cellar.
d) In the case of the injector becoming clogged (the cartridge still contains gas but the equipment will not light), do not try to unblock it yourself. Return the equipment to your retailer.

H - TERMS OF APPLICATION OF THE GUARANTEE:

This product comes with a full guarantee covering parts and labour for a period of 2 years. The guarantee applies provided the product is returned free of charge, not dismantled, to one of our approved service centres. The product must be accompanied with written evidence of the date of purchase and a description of the malfunctioning observed. Products that have been modified by third parties, as well as breakdowns due to improper utilisation or maintenance are not included in the warranty.
