6. Attach clips located on the seams of the tent to the corresponding poles above each (Fig. 6A and 6B).

7. Stake the tent down (Fig. 7A and 7B).

---

8. Find the zippers on the fly. These will be the vestibule entrances at the front and back of the tent. Drape the fly over the tent body with the zippers over the doors (Fig. 8).

9. Clip the buckles on the fly to the buckles on each corner clip of the tent body (Fig. 10A and 10B).

---

10. Stake out the vestibules at the front and back of the tent so that they are taut.

11. Cinch the webbing on the fly buckles at each corner of the tent.
